Simple to use:

Find your fixed LEFT edge. Using the palm of your hand, turn the center cap to the right until it stops. Then turn it to the left until it stops. This is your fixed left edge. Arc is preset to rotate 180°.

Adjusting the Pattern.

Using a screwdriver, adjust the arc dial clockwise (+) to increase the arc or counterclockwise (-) to decrease the arc. Pattern is adjustable from 40° to 360°. Do not turn past right or left stop. Adjust wet or dry.

Adjusting the Radius.

Using a screwdriver, turn radius-reduction screw to reduce radius up to 35%. Adjust wet or dry.
